Dear Paul:

As a fortunate recipient of the end-product of the Foreign Broadcast Information Service for so very many years, I cannot let this 30th anniversary go by without telling you personally how very much we appreciate the help it has been to us. We fully appreciate the time and effort which has always been devoted to the work, and I must say this shows up in the excellence of the productions.

I certainly wish you the best of luck for the next 30 years -  
and more!

Sincerely,
